## SERIOUS TIMES INDEED! ALERT!

*"The Lord knoweth how to deliver the godly out of temptations,  
and to reserve the unjust unto the Day of Judgment to be punished:" 2 Peter 2:9.*

Never, ever, ever before has this earth faced such perilous times!

Simply to try to list off even a few of the disasters about to fall, or are happening right now, is an almost unachievable labour. What am I attempting to communicate to you? Perhaps a little of the tremor inside I am encountering, as I consider soberly the plight of the unsaved billions on this planet, and the pure justice of the Almighty Creator Whom we serve. It seems 99% sure that the Tribulation period of Judgement is *not* close by, but has virtually arrived - all bar the actual crash of beginnings! The Rapture cannot be far away, we have not encountered anything like the events coming in the next days and months ahead of us. I want to say something to prepare those who are not aware, although Internet should have alerted many of you. ... Romans 1:17-19.

*"For therein is the righteousness of God revealed from faith to faith: as it is written, The just shall live by faith.  
For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men, who hold [down] the truth  
in unrighteousness; Because that which may be known of God is manifest in them; for God hath shewed it unto them."*

### PLANET X.

The wrath of God is heading towards us with the speed of a jet.

The bizarre happenings on and around this planet seem like psychosis - a crazy world, topped with an icing of a mad atmospheric heaven! Do you know of the "conspiracy theory" Planet X hurtling towards us? It looks like this "theory" is a FACT, and the earth inhabitants can do nothing about it, just look on and up with shock!

### What should your reaction to this fact of Planet X or Nibiru and Elenin be?

Prepare yourself, are you ready to meet God? Have you received Christ Jesus as Saviour and Lord? If so, help others to be prepared by winning souls to Christ. Other than that, there is nothing you can do in reality, the "blessed hope" or the Rapture sure seems blessed right now. If this awful scenario is lessened or removed by the Lord in some sort of miraculous intervention, then praise His Name. But, the weeks or months ahead will reveal it all. Be brave in Him, beloved ones, and have pity on the unsaved.

HERE IS A SAMPLE OF THE MATERIAL SENT OUT BY JUST ONE CHRISTIAN INVESTIGATOR:

[http://www.his-forever.com/planet\\_x\\_fmr.pdf](http://www.his-forever.com/planet_x_fmr.pdf)

Extract: Pastor Riley – USA

Because it is so large, Planet X also has an electro-magnetic field surrounding it that is second only to that of the Sun in the solar system. In other words, it acts similar to a powerful "magnet" in space, pushing all kinds of space debris out in front of it as it advances through space and trailing a million miles or more long tail of space debris behind it.

The astronomers and scientists who lived in 1981-82 also learned that Planet X was INBOUND into the solar system, and they calculated that it would be somewhere between 25 and 30 years before it would come flying through the solar system and past the earth. In view of the gigantic size of Planet X and its powerful electro-magnetic field, the scientists knew that when it comes flying through the solar system it will cause all kinds of destruction to the planets in the solar system. This destruction will be caused by Planet X virtually wiping out or overwhelming the gravitational and electromagnetic fields of each of the planets in the solar system. The far greater gravitational and electro-magnetic fields of Planet X will cause great earthquakes, volcanic eruptions, and geological changes on all of the planets in the solar system. Compare **Psalm 102:25-26**. Significantly, this is exactly what was recorded by the ancient Sumerians as happening the last time Planet X came flying through the inner solar system some 3,600 years ago.

If the earth was exempt from this there would be no problem, for man's modern technology has revealed that earth is the only planet in the solar system that is actually inhabited by mankind. But the earth is not and will not be exempt! This planet will be affected terribly by the passing of Planet X, just as the records of the ancient Sumerians record the terrible destruction and death that occurred the last time Planet X came some 3,600 plus years ago. When Planet X comes through the solar system and flies past the earth the whole earth will shake. Compare **Haggai 2:21, Hebrews 12:26-27, and Isaiah 2:12-22**. There will be great earthquakes, volcanoes all over the earth will erupt, terrible tsunamis will sweep over whole continents, mountain chains will fall and others will rise, some land areas will sink beneath the oceans and some land presently beneath the seas will be raised above the waters. There will be weird and even instant climate changes, causing strange and terrible storms to ravage the earth with terrible winds, floods, freezing temperatures in some areas, and blistering heat in others. MILLIONS OF PEOPLE WILL DIE! The infrastructure of every nation on earth will be destroyed. There will be massive death and destruction all over the earth, and the world as we have known it in the past will cease to exist.

**More from Pastor Riley to Dave .....**

The Lord put us here to help and encourage one another in our Christian walk, and as we witness to others about our Lord and the way of salvation. You just feel free to write anytime.

Yes dear brother, the larger blue object is Planet X following approximately a month behind Elenin. The photo you took is just more confirmation that the Tribulation is staring this lost world in the face RIGHT NOW.. And because these heavenly objects are coming, one behind the other, exactly as predicted in **Revelation 8**, it just gives more confirmation that the pre-tribulation rapture is "right at the door." I personally think we believers have somewhere around 30 days, give or take a few days either way, to remain here and then we will go home to be with our Lord and His people for ever. Glory to God! Hallelujah! Praise the Lord!

Thank you dear brother for sending this information to me. I am going to share it with others who are witnessing to these skeptics. The evidence is piling up! Those "professing Christians" who are mocking and scoffing and refusing to believe are going to have no excuse for their unbelief when they stand face to face with their Lord. God have mercy on such "willing ignorance."

You can see Elenin for yourself right now if you will take your cell phone camera and take a picture of the Sun. The cell phone cameras operate off of infrared technology. The camera will photograph what you cannot see with your naked eye. When you look at the photo on your cell phone, notice that Elenin is the large "blob" at the lower left (or perhaps near the middle) of the Sun. Notice also the size of the thing in comparison to the size of the Sun. A tiny little comet or

asteroid would not appear as much more than a dot, but this shows up in the photos as LARGE. It is nowhere near as large as the Sun of course, yet it is about five times larger than the earth.

I will also send you an article and video produced professionally by GOOGLE telling people exactly how to see Elenin and where to see it. It is a fascinating video. Just follow their instructions to the letter and there will be no problems in seeing it.

Sun & ELE 8-31-11, 1:31 pm  
So Utah USA. Annette took  
photo with cell phone

Yes, I am definitely looking for the Lord in another 30 days or less. We are at the end of this dispensation whether some want to believe it or not. Sometime in September Elenin will get so close to the earth that it will become visible to the naked eye. That is when a lot of skeptics and unbelievers on this earth are going to soil their pants or drop dead from heart attacks, *Luke 21:25-28*. Look up dear brother! We are almost home!

God bless you. I'll see you SOON in glory. Pray for me.  
*Pastor Riley - WOW!! I did exactly what you said and took a picture of the Sun with my cell phone camera. There is a white dot on the lower left side of the Sun and appears to be in a much larger blue object which appears to be in the background of the white dot. Is the larger blue object Planet X and the smaller white dot the comet Elenin?*

*I am HOPING and PRAYING that our Saviour comes for us THIS MONTH!!!*

## SOME COMMENTS FROM OTHER CHRISTIANS:

*Extract: The book "A 7-YEAR SURVIVAL GUIDE TO THE CROSSING OF PLANET X" by J T GRENOUGH*

"... SUMMARY OF WHAT WE'VE LEARNED pp.13-15

So much of what we've learned is complex and some of it may be new to you. Let's go over what we know so far. And very importantly - do your own research! Let this be a guide for you. Virtually everything we've gone over so far can be validated through research. You can research on the Internet. You can buy an 8-inch Meade scope, set it up (though usually setup is a two-month project to become proficient) and you can see it for yourself.

You have to think like an intelligence officer to understand how the government operates. They operate in terms of covers and legends when they don't want to disclose their real purpose. In terms of the South Pole Telescope, for instance, a good cover is "We need to study cosmic rays in an undiluted atmosphere in order to understand the age of the earth." Sounds ridiculous, doesn't it? Well, that's one of their supposed reasons for the SPT.

You have to use your intuition as well as rational thought. You have to train yourself in critical thinking and analysis. Buy and read a good book on the Intel community and how they operate. Remember, the government(s) have taken care of their own. You have to take care of you. Russia is just finishing 5,000 shelters in Moscow. They're much more open (in this regard anyway) on this topic than other governments.

I personally estimate the US probably has over 150 Deep Underground Military Bases (in every state). Russia has some that can accommodate over 100,000 people (at the base of mountains). These are entire underground cities that have been under construction since the 1980s.

Until the discovery of Planet X astronomers had regarded the writings of the ancient Sumerians about this object as legend. When Planet X was discovered in 1983 they suddenly learned that the Sumerians were not the primitive people they have been made out to be by "intellectuals" of today.

What these modern scientists discovered is that Planet X is a huge DARK planet which is much, much larger than the earth. It is so large we refer to it as a planet, yet it has an elliptical orbit more like that of a comet than a planet. Its orbit is so elongated that it spends most of its time in the darkness of outer space and it comes back into our inner solar system every 3,630 years!

Because it is so large, Planet X also has an electromagnetic field surrounding it that is second only to that of the Sun in the solar system. In other words, it acts as a powerful magnet in space, pushing all kinds of space debris out in front of it as it advances through space, and trailing a million miles or more long tail of space debris behind it.

The astronomers and scientists who lived in 1983 also learned that Planet X was INBOUND to our solar system, and they calculated it would be close to 2012 before it would arrive. In view of the gigantic size of Planet X and its powerful electromagnetic field (which we'll see further on will cause it to wrest magnetic polarity of the earth from the sun), the scientists knew that when it approaches the earth it will cause all kinds of destruction to each of the planets of the solar system. Saturn is one example.

Venus is another. In the last weeks a sudden brightening of Venus is being observed. It is so astonishing that people are questioning if it is actually Venus. The brightening is due to Nibiru's (I use Planet X and Nibiru interchangeably) magnetism entering Venus's magnetosphere and condensing into high-frequency electricity (plasma) ...."

## *Planet X and the Mysterious Death of Dr. Robert Harrington*

Dr. Robert S. Harrington, the chief astronomer of the U.S. Naval Observatory, died before he could publicize the fact that Planet X is approaching our Solar System.

Many feel his death part of a cover-up. One in which government agencies quickly moved to conceal the most earth-shaking discovery in history. If so, the search for truth begins in New Zealand.

In 1991, Dr. Robert S. Harrington, the chief astronomer of the U.S. Naval Observatory, took an 8-inch telescope to Black Birch, New Zealand, one of the few viewing points on Earth optimal for sighting Planet X, which he definitively calculated to be approaching from below the ecliptic at an angle of 40 degrees.

By analyzing time-lapse photographs using the "blink comparison" technique, originated by famed Pluto discoverer, Clyde Tombaugh, Dr. Harrington proved that Planet X was indeed inbound into our Solar System. Harrington sent back

reports of this ominous discovery, but died of what was reported to be esophageal cancer before he could pack up his telescope and come home to hold what would have been a highly publicized press conference.

The source below indicates that Harrington began the search at Black Birch in April, 1991, two years before his death. However, considering the painstaking process of trying to find a distant needle in a very large haystack, two years is not much time at all....

## WEIGH TOGETHER THE FOLLOWING NUMEROUS FACTS:

1. Publicity of Harrington's discovery would pose a great threat to the social, political, and economic stability of the World;
2. It is extremely unlikely that a man would contract cancer and die within a matter of days, suffering the sudden impact of pain and debilitation characteristic of rapid onset cancer, while miraculously travelling on a physically demanding expedition and performing intensive astronomical operations.

From his obituary:

**Robert (Bob) Harrington died on Jan. 23, 1993 after a short, but determined,**

**battle against oesophageal cancer. He left his wife, Betty, two daughters, a sister, and his parents.**

3. Even though Dr. Harrington died before he could publicize the fact that Planet X is approaching our Solar System, the U.S. Naval Observatory was apprised of it, as was NASA, yet these government agencies concealed this most earth-shaking discovery in history; (This appears to be true, as this writer spent a week searching the Internet for information to the contrary and found none.)

4. Furthermore, in publishing Dr. Harrington's obituary, the U.S. Naval Observatory went out of its way to gratuitously lie about Dr. Harrington's final achievement, stating that "in his final years, Dr. Harrington had lost interest in the" [two-century astronomical] "search for Planet X."

**The obituary had the following to say about Planet X:**

*Considerations on the stability of the solar system led Bob to collaborate with T.C. Van Flandern in studies of the dynamical evolution of its satellites, and to an eventual search for "Planet X", conjectured to lie beyond Pluto and to be responsible for small, unexplained, residuals in the orbits of Uranus and Neptune. Late in his career Bob seemed quite skeptical of such an object, however.*

5. Secrecy about the approach of Planet X could have been much better achieved by NOT mentioning Harrington's interests in his later years; so why did they concoct this lie gratuitously? Because they are not very clever, this brain trust ensconced within the bowels of the national intelligence apparatus.

6. Dr. Harrington's colleague in the search for Planet X, Dr. Tom Van Flandern reversed his affirmative statements about the approach of Planet X and became peculiarly silent on the issue. In Meta Research Bulletin (September 1999), he states:

*"Three more trans-Neptunian objects confirm the presence of a second asteroid belt in the region beyond Neptune. This probably indicates that the hypothetical Planet X is now an asteroid belt rather than an intact planet."*

7. As long ago as Dec. 30, 1983, the Washington Post published a front-page article announcing the discovery, by the Infrared Astronomical Satellite, of this very same celestial object, calling it "a heavenly body, possibly as large as the giant planet Jupiter, and possibly so close to Earth that it would be part of our solar system"; yet, this great scientific heralding was immediately reversed as the news media fell astoundingly silent, and has been silent for the past quarter-century.

[Here is a clip from that report.](#)

## Washington Post, December 30, 1983

*The mystery body was seen twice by the infrared satellite as it scanned the northern sky from last January to November, when the satellite ran out of the super-cold helium that allowed its telescope to see the coldest bodies in the heavens. The second observation took place six months after the first and suggested the mystery body had not moved from its spot in the sky near the western edge of the constellation Orion in that time. "This suggests it is not a comet because a comet would not be as large as the one we've observed and a comet would probably have moved," Houck said. "A planet may have moved if it were as close as 50 billion miles but it could still be a more distant planet and not have moved in six months time."*

If a massive planet and its entourage is approaching our Solar System one quarter-century ago, and the media chose to conceal it, does this wrecking ball suddenly become a soap bubble? Or does the fear-bred silence of the powers-that-be suggest that they are desperately protecting their empire of social, political, and economic domination for as long as

possible before they duck into their elaborate underground cities in a wishful attempt to survive God's promised wrath, now hurtling toward us all? (End of Extracts) **DISCLAIMER** : The above material by JT Grenough, has unscriptural instructions about surviving the Tribulation,

although his other research details are good.

God has NOT appointed us unto WRATH - 3709 orge {or-gay}.

"ORGE" is only used of the Tribulation wrath of God. (1 Thess. 1:10; 5:9)

Be sure you accept Christ Jesus as Saviour – or you may soon need to attempt some sort of emergency action as shown in the Grenough Book, which would prove rather futile, according to Revelation 6:12-18 for example.

If we join the alarm call and all remains as it was before, then we face ridicule and disgrace in many people's eyes - afterwards. But, it is not an option to remain silent.

What is going on is horribly like the Biblically predicted Disaster of the Last Days:

Be careful NOT to shoot the messenger, we can only do our best before God and pass on the info that we have access to. If the Rapture is not to be this Rosh Hashana and we go into next year, then this gives us all time to warn others and "pluck brands from the burning still".
