REPORT ON... THE INVERELL FORUM - 2007

The annual Inverell Forum was held this March, and Despatch took the trip to New South Wales to encounter this event for the first time. The Forum has been in operation since 1988, and has seen many of the top Freedom Fighters of Australia take part as speakers. This year well - known whistle -blower, **Dave von Kleist** from the USA was present. This man has been responsible for exposing the 9/11 horror, revealing what really happened in America on September 11, 2001. The Forum was to have included Pauline Hanson, leader of the controversial political party One Nation. She backed out at the last minute due to an attack against her in the media (see end of booklet for details). **Jeremy Lee** spoke this year; our readers will recognize that name no doubt.

Other speakers who have graced the platform at Inverell

**Forum Compere:
Denis Stevenson**

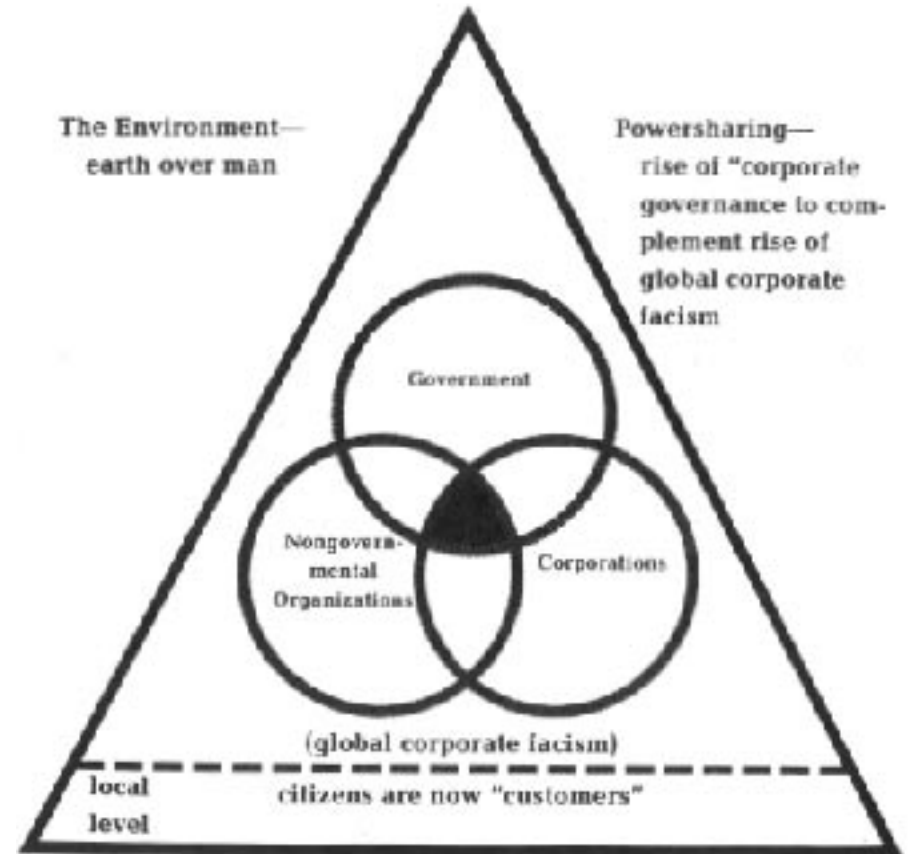

Forum was what it was, a place for people

in previous years are: the (late) Tony Pitt, Senator Paul McLean, Graham Strachan, Arthur Tuck, Brian Wilshire, Prof. Mark Cooray-and many more. The remaining speakers (first 2 days only) in 2007 were electric; it was not a boring forum by

any means! The attendance was somewhere in the vicinity of 200-250, farmers and country people "red-necks" (including us) from Queensland and a smattering of people from the other states. The forum was very serious indeed, but an attempt to lighten up with a bit of music and jokes was appreciated in view of the heaviness and distress of many who were there. A good "networking place" the compere said, and that

Chart 2-5: "Reinvented Government" = Communitarianism = The Third Way = "Reinvented Communitarianism"

- Rule by public-private partnership;
- no representative government;
 - no checks and balances;
- power shifted from federal to "community-owned government";
 - rise of communitarianism or rule for the "common good";
 - group rights-"bottom up"

political and academic criteria.

Our final command is from **Matthew 6:33**

"But seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you."

I pray this is indeed our readers experience. . . . God bless you!!!!

can be dealt with under the repressive laws the government has specialized in producing. What will it take before we have reason to expect a WACO to occur on Australian soil as a reaction to such behaviour?

Australians, like people in many other lands, have a very poor record for supporting their 'brave and true' when freedom fighters come under attack from authorities. Over the years I have met many individuals who have taken up the cause against repression and deceit, both as individuals and within various groups and the end result has virtually without exception been broken lives, emotionally, financially and socially as they have been used and discarded by many.

Does this mean, however, we should simply do nothing and wait for the fate that is apparently coming upon us all? Not at all! If activism is your thing then work quietly away spreading information and details of the strategy that has been employed against us and try to educate people as to the enormity of what we are dealing with. We need to understand that we are dealing with a juggernaut, a media, industrial, political and propaganda complex that brings everything else into insignificance in comparison, quite unlike anything that has existed before in human history.

We have been warned

about all of these issues in Scripture and the warnings have been available to mankind for centuries. We need to heed these warnings and act on them with a knowledge and understanding of the whole realm of doctrine being guided by the source of all truth Himself.

Jesus Christ stated (**John 8:32**)

"And ye shall know the truth, and the truth shall make you free."

It is imperative in our day that we GET OUR SPIRITUAL issues right and understand the implications of this subject fully before we start reacting to the circumstances and conditions we see prevailing around our world as discussed at various actionist talkfest's.

In **II Corinthians 10:4**

Paul is talking to BELIEVERS and he states:

"For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strong holds."

Calling for violent action and opposition toward politicians and other agencies will achieve nothing in the greater picture until the majority of our people understand their situation is firstly a spiritual condition that can only be corrected, to use a term from New Age thought, holistically! In this word I am embracing spiritual, moral,

of "supposed" like minds to meet and discuss, to listen and be encouraged. We felt extremely sorry for the farmers, and the returned soldiers there who had fought for freedom that we **no longer have!** We had tears in our eyes a few times, and watched photos of our poor Australian outback in drought, dead cattle and kangaroos, ruined rural properties, wrecked lives as graziers contemplated suicide, - we felt much empathy and sorrow. **"Cry my beloved country"** could suit Australia now; she is a weeping continent, demolished by **FAKE DROUGHTS AND POLITICAL TRAITORS, GLOBALISM AND DUPLICITY.**

I want to get very sober and real right now.

These are my own observations and opinions and you must make your own, no one should think for you. I will try to reconstruct the forum as we encountered it, on Friday night and all day Saturday.

We were all gathered in the Flanders House Conference Centre next to the RSL hall, it reminded me of a war scene in a film with the enemy from Japan coming, or extreme danger being faced. We are huddled together making jokes, having tea breaks, the ubiquitous blue cattle dog roaming around; it is as if we are under occupation. The speakers

come on, various stages of intense nationalism gushes forth.

An old man of 80 odd, **Des Morrison** who has served as police-

man, patrol officer, in prison and infantry services in Australia, Canada, Mexico, Hong Kong, UK and Northern Ireland, brings in the biggest explosion. **"Vote 'em out", "Kill the buggers", "get guns and shoot the traitors", "teach young men to cut throats and break necks**

in unarmed combat (graphically described, take out the neck bone etc.)", swearing reaches a low, low level, civil war and blood-shedding seems all that is left for these blokes and their Aussie wives - if

civil disobedience does not work!

They are so betrayed by all political parties in Australia now that they trust none of them (rightly so). Although they want initial approaches to be made politely to political government, to vote to bring power to independents and break down the major parties, they still see when you come down to it, guns and violence as the only way to rid our country of the "enemies" in the long run.

Who are these "enemies"?

- The GLOBAL GOVERNMENT (recognized as being already here, which it is),
- the MULTI-NATIONALS,
- the vestiges of OUR ONCE FREE GOVERNMENT now puppet-like under the New World Order, even the opposition party!

Everyone is aware that we have reached the point of no return, but the resistance goes on. **WHY?** Because the unthinkable, the insufferable, the hideous has happened. Our country has fallen to a foreign global power, our government has aided and abetted the sell-out, after all the years these staunch people have put into warning, alerting, pouring over documents and being so intense about saving our country, and the world, from the N.W.O.

Many of these men and women have given their lives and their youth into this cause, have

grown old in exposing this stuff, and have become unpopular with family and neighbours in order to appraise the global conspiracy.

Yet, here we all are, we have been inflicted with global government any way.

How to cope?

What now?

Go on with the same old way of life, exposing, meeting together around the latest set of explosive documents or videos or DVDs? Pretend we are back in the WW II period, and plan to resist as though we are? Where is reality now?

Here I will give what we felt was the main difference with what we see as the solution, and what the Inverell Forum sees as the solution.

Perhaps the words of an old hymn will give the picture:

HOLD THE FORT.

*"Fierce and long the battle rages,
But our help is near,
Onwards comes our
great commander,
Cheers, our comrades, cheers.*

*'Hold the fort for I am coming,'
Jesus signals still.*

*Wave the answer back
to Heaven, '*

by Thy grace we will.'"

We see Jesus Christ coming soon, and regard the whole battle to be His - we are only holding the fort till He comes.

Inverell Forum does not, corporately in any way, accept

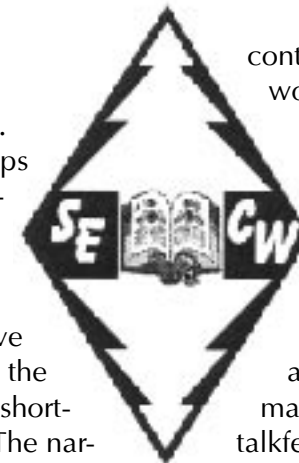

THE DANGERS OF TODAY'S POLITICAL ACTIVISM

Allen Woodham

I was recently asked to read the result that we are now experiencing.

article commenting on the 2007 Inverell Forum by Despatch Magazine, I was both shocked and saddened at what it contained. Having been a commentator on issues as they pertain to what we might term fundamentalist believers for over 35 years I was amazed to discover the situation that apparently existed today at such an event.

Freedom groups have existed in Australia for many years and the article I read illustrates to me that, in the main, they have never moved on from the situation that prevailed shortly after World War II. The narrow white Australia that existed at that time has been replaced forever with a multi-race, multi-faith, conditioned people that have a one world global view built on deceptions and philosophies that have alienated and isolated the ideas of old. This has happened by a planned design and it has been perpetuated to produce an end

control that is sweeping our world.

• Firstly the situation we are now faced with is so advanced and so instilled within our society there is virtually NO chance that it can be reversed by a small group of people making plans at an isolated talkfest that reaches less than .05% of the population.

• Secondly with the current mindset that prevails across our wider society such calls are simply playing into the hands of those who seek to enslave us all as it illustrates to the uninformed that calls to violence can be justified as 'terrorist acts' and such acts

I spoke to Jeremy Lee at length about the Church not being called to create a "Kingdom on Earth" for Christ. The Bible teaches that Jesus Christ is well able to do that Himself at His return - without our help! Jeremy was not convinced as he appeared to put his faith in the "Churches" United in Political

Action, including the Recommended reading on Theocracies as government and the Biblical Plan of God - **"Whatever Happened to Heaven"** by Dave Hunt.

HANSON WILL SHARE STAGE WITH HOLOCAUST DENIER.

By Greg Roberts. February 15, 2007 02:00am. Article from: The Australian

ONE Nation founder Pauline Hanson plans to share a platform with a prominent denier of the Holocaust and a well-known neo-Nazi

activist.

Ms Hanson will be a special guest next month at the Inverell Forum, an annual talkfest in the NSW country town that has long been associated with right-wing extremist groups.

Ms Hanson announced in December that she hoped to resurrect her political career by standing as a candidate in this year's federal election.

She will share the Inverell platform with **Richard Kreege**, an Air Services Australia engineer who recently attended the Holocaust Conference in Tehran. The Iranian government - sponsored conference attempted to disprove the accepted historic fact that six million Jews were murdered by the Nazis during World War II.

Mr Kreege is regarded by fellow Holocaust deniers as an expert on the notorious Treblinka concentration camp, in Poland. Although 800,000 Jews and others died there, he claims just 5000 perished of disease and none were killed.

The Inverell Forum website said the gathering would discuss the **"current Zionist propaganda campaign designed to condition the public to accept the inevitable first attack on Iran"**.

Ms Hanson will also share the platform with **Welf Herfurth**, a long-time activist with Germany's neo-Nazi National Democratic Party before he moved to Sydney.

Mr Herfurth will address the forum on **"what other nationalists outside Germany can learn from the NPD's practical approach to politics and creating a parallel society"**.

Other speakers at the forum include James Cook University academic Bob Carter, a leading global warming sceptic.

Ms Hanson could not be reached for comment yesterday.

The forum will hear how **"recent events in Australia have galvanised her once more into taking up the cudgel for patriotic Australia"**.

Ms Hanson served a term

the Rapture, see Christ Jesus as the mighty Victor coming to wipe out the enemy, and coming to establish His own Kingdom on earth.

- **Jeremy Lee** sees a kind of "Kingdom Now" control from the churches.

- Some suggest civil disobedience as a first measure - don't vote, don't pay taxes, wage protests!

- But, they mainly see political action, civil war, and violence as the answer, and would regard anyone who does not accept this as pie-in-the-sky morons.

- To quote an Aussie Newsletter "I've always thought it was an action 'gabfest group' for hyping up the NWO but it gets little result."

WHAT NOW INDEED?

If we believe Biblical prophecy, and this writer certainly does, we have no problem with this hideous reality of the New World Order take-over - the Bible told us it would happen. God has all in hand. If we persist in a worldly view, although we might claim vehemently that we are Christians, then we will be on a slippery slide, ending in the muddy bog at the end, one way or another.

Let's consider this: WHY? Because...

(1) Little groups of resisters against the New World Order cannot hope to overcome the whole world sys-

tem of the global elite, by taking up a few worn out guns. The Inverell Forum had half of the attendees over the age of sixty, and most of the other half over the age of 45. A few younger people were scattered around. Most of the Australian population does not even believe in the New World Order, and supports globalism. It is the same in other parts of the world; the masses are deceived in the main. They will not join with resisters.

- The Inverell Forum is small 'bickies' compared with the Federal Government, the Federal Government is an almost powerless group compared with the global government.

- The weaponry of the global government is inconceivably advanced, we only know a small amount about it - and we are mind-boggled by the technology.

- They have satellites that can listen to our conversations in our houses, and kill us in our beds whilst we sleep.

- The Chem-trails in our atmosphere are causing sickness, ex-

haustion, contributing to changing weather patterns, and instrumental in bringing droughts.

- The weather Warfare from Scalar Technology is just beyond comprehension.
- The N.W.O. has the capacity to
 - starve us out,
 - remove all our water,
 - drug us into compliance,
 - dull our senses and drive us insane!
- Not to mention the microchip, RFID technology with its tracking capabilities.
- The terrifying ELF and EM wave technology for mass mind control from a passing plane or satellite.

**Resisters with 'pop-guns'
will be annihilated.**

WHY? BECAUSE...

(2) The youth of our country, whom the Inverell resisters hope to commandeer and train (*they reason that 2 years national service should straighten them out*) after they seize power from the government), have been trained up all ready! Since kindergarten they have been trained to see themselves as **"global citizens"** and have been told that the "NATION STATE" is obsolete. The children have been trained in the propaganda of the globalists in the name of **"environmental concerns"** and "SAVE THE PLANET."

Our children and young people have become like a (*potential*) Hitler Youth group, in their zeal to take power themselves from

the old fogies, in order to "SAVE THE EARTH", and they see anyone who does not share their vision as being Mother Earth destroyers who must be silenced (or worse) if any of the younger generation and their own children can have a hope of conserving an earth to live on in future years!

Three of us sat through the **Gorbachev Forum, Green Cross**, held in Brisbane City Hall last year, thousands of children were listening live (online) as they were told to bring civil disobedience if their country did not sign up with the United Nations, (as they now knew more than the "oldies/others", and were better able to discern a right course of action.)

The **Earth Charter of the New World Order** was on tables in piles, and the young people were extremely zealous about being INTERNATIONAL CITIZENS who could unite to solve the **"environmental"** problems. These kids will fight their own country men to save the planet.

To be in City Hall and hear the cheer that went up (from the children, mainly) when a speaker said **"I could kill George Bush"**, was so chilling.

We were asleep while the enemy snuck in and stole our kids. Our young people have been told that the Nation State is obsolete, they do not love our nation they love the EARTH!

Our Premier, the Lord

is huge in global water control organizations!

(Refer to previous Despatch Issues here.)

- France is involved in the Qld. pipe-lines and infrastructure that Beattie is building.

When complete **"water control"** is gained, how soon before PPP takes place. ... and our water is sold to the highest INTERNATIONAL bidder??

- China already has a long term Lease on South Australian Power.

The old hymn **"HOLD THE FORT"** has an interesting and inspiring history. Revelation 2:25 **"-hold fast till I come."**

During the civil war in the USA a small Northern force of soldiers was in charge of guarding a great quantity of supplies. Finally the Confederate general commanded the Federal troops to surrender. At that moment the troops saw a signal from their leader, General Sherman, on a hill some miles away which said, **"Hold the fort, I am coming. Sherman."** The writer of that hymn wrote it after being inspired by the story of Sherman and his message. We too should live in the realization of our great, victorious Commander saying **"HOLD THE FORT! I AM COMING! JESUS."** Praise God.

And if He tarries? Then all our petty "weapons" are not going to do much to defend us anyway! GOD will look after me and mine - how about you?

GARY KAH, *Hope for the Future* editor, former government trade specialist, talk show speaker and well-known author who exposes the New World Order world-wide, writes this in his, *Winter Newsletter 2007*:

"We must remember that the emerging one-world system and the unveiling of the Antichrist will be just the beginning of a series of events foretold in Scripture. All of these will point to the Second Coming of our Lord and King Jesus Christ. Unlike the first time when He came like a lamb, this time Jesus will come as a lion to destroy the Antichrist and his forces and to rescue His own who remain. I cannot tell you how much I look forward to the day when Jesus will rule over the earth in righteousness. But between now and then we have the challenge of living in, yet not belonging to, this present fallen world. Christians who boldly share the truth of Jesus with a heart of love and compassion are God's salt and light to a broken and crumbling society. As God's ambassadors, if we "throw in the towel" hope is lost. This is not a time to be weak, but to be strong in the power of the Holy Spirit, as we bring in God's harvest...there are still many, I believe, waiting to be snatched from the flames of hell."

distrust the media and government. In an extensive survey, only 6% trust the government; 24% trust the television; and 22% trust the newspapers. He has a DVD of his lectures - excellent presenter.

You can get DVD copies of all of this from Despatch if needed.

We did not stay for the Sunday meetings, so cannot comment on those. We can only assume they were on the same track.

See the Pauline Hansen Newspaper clip at the end of the booklet.

BEVAN O'REGAN

A long time Councillor and former Mayor of the Narrabri Shire, NSW, spoke about the Government's Legislative theft of Water from our FREEHOLD title of our Land.

He told how water is now a COMMODITY and has been declared to be owned by the government, although by law it belongs to the land-owner by freehold. The problems that this will cause for councils, including Rating, was brought up.

Our ownership by law on freehold land includes, "**water, soil, vegetation & air.**"

TRANSLATED:

The water-grab "laws" state that councils can "**set rates without water**".

We SHOULD

(used to) have rights over our own property, what vegetation we can clear on our own land and what we do with our own water. **O'Regan** is asking if the government has now removed these rights from us what are we paying rates on.

The original laws on "**Fee Simple Absolute**" (FSA) in NSW from 1913-19 have never been legally rescinded over our Freehold land. The Rating is based on the value of land/house if offered for sale, includes "*soil, air, water and vegetation*". If you own freehold land you are under **Internationally recognised protection, from Magna Charta, and thus under the Crown.**

- The Earth Charter for all intents and purposes nullifies this.

Bevan & other councillors are due this week in court to find out if they are legally allowed to RATE on a Restricted Basis, and hopefully get an order to reverse the legislation, that has been put in place, that illegally destroys the FSA Laws.

On a Similar Note:

- Premier Beattie in Qld. is now taking away the Water Infrastructure rights from our Councils in Queensland; he has already removed the water rights from them by the **Water Commission** that was recently formed, just before Gorbachev arrived in Brisbane last year. Gorbachev

Mayor and the Governor General all sat at the feet, figuratively, of the New World Order men and women sitting in our own City Hall. Including the Illuminati Leninist, Mikhail Gorbachev.

(A full report of this Green Cross forum will be sent if requested).

The Inverell Forum seemed unaware of so much! Although Jeremy Lee read out a very up-to-date document from Joan Veon-USA. They **heard** it but did NOT understand.

They are out-dated, unrealistic, patriotic and dedicated, self-sacrificing heroes, who make one cry with frustration and compassion! **FACE FACTS I.F.!** One scene sticks in my mind, Des Morrison crying out, "*stand up if you are a Christian. Come on, all of you that call yourselves Christians. Stand up!*" There is hesitation, people look around. "*Come on, you don't have to go to church or anything like that.*" They start to stand up, most do, many reluctantly? It seems to me that because they cannot now call themselves Liberal, or National, or Labour, or anything, then lets all move by the name of "Christian." Des would include here, no doubt, the Roman Catholic Church, and anybody who will oppose the government.

Des himself is a strange Christian, with his use of the "Bloody" word, and other oaths, every second breath, and what about his violent outlook??

Another scene stands out. A rather mild looking, unassuming woman comes to the microphone in Q & A time, to say her piece. She wants to know how to form groups that will kill the "traitors" and overthrow the government! She talks about violent insurrection, enlisting support. She is just a lady one might see at "Woolies"!

We wanted to preach the Gospel to these people; they need to accept Christ as Saviour and Lord, to be safe in Jesus.

The New Age occult magazine, *Hard Evidence*, was presented in the book room. Stacks of magazines, with anti-Christian material in them, the religious views of the New Word Order and real satanic stuff, laying there ready for people to buy. *Nexus* magazine was presented as well, second hand copies. This is a New Age occult magazine, see it for yourselves, it is in your own newsagency. There were other books that were horrible. Including "*The Protocols of the Learned Elders of Zion*" which is an evil book if there ever was one!, and *British-Israelite* material and the like - anything goes it seems.

I complained about this and was told, "**Everyone is entitled to their views.**" Double standards? The general presentation is that they are a staunch Christian group??

WHERE TO NOW?

Let us compare views, our own against Inverell Forum.

Which do you share, reader?

Make up your own mind, the stakes are huge. We are not passivists per se, we would defend the innocent and helpless with our own lives, but we are realists and God-fearing:

BIBLICAL VIEW	WORLDLY VIEW, as per the Inverell Forum.
<p>1. Christians are just passing through this world, Heaven is our home and we own allegiance to our home and God. We are God's ambassadors here on earth.</p>	<p>1. We must save this nation and our world - or our families and their families will have nothing in the future!</p>
<p>2. Christians are a part of the "Ecclesia" the Called-Out ones who are the Church. We are not here to establish "Christian" nations, we have been left here after we were saved to preach the Gospel and save souls.</p>	<p>2. The Churches must take over the politics of this country - and make a Christian nation with Christian ethics. Political parties, Labour and Liberal (or any other party?) are now corrupt and traitors under the global elite. The Inverell Forum is speaking basically of a Theocracy for Australia - including churches which are (unknown to I.F.?) already a part of the New World Order (the Vatican, all the churches taken over by Purpose Driven Life etc).</p>
<p>3. The Bible says everything will fall away into more and more wickedness - even the denominations themselves. Then, the Antichrist will establish a global kingdom of Great Power. ALL nations, including Australia, will be swallowed up in this. Then, God will pour out His wrath on this earth, culminating in the Great Tribulation of three and a half years.</p>	<p>3. Australians can fight to restore our country to what it once was - white supremacy, nation proud, under Queen and Christian God, get rid of the Muslims and make laws against homosexuals, make sure women stay home and care for babies and so on. All very well said, but what does one do with the Muslims already here, and the homosexuals? Do they want to legislate against working women?</p>
<p>4. God will soon take His Called Out ones to shelter from chaos on earth in the Rapture. After the Tribulation has ended, Christ Jesus will return and set up His Millennial kingdom which will last for a thousand years.</p>	<p>4. There is no Rapture, that is a cowardly cope-out! (Not expressed per se). The hope for the world is a return to Nation State control and to enlist the churches to bring in a Theocracy. We can win, get 'pop-guns' and learn unarmed combat!</p>

MATTERS TO COMMEND.

Let me humbly suggest that I do not know everything, and acknowledge that there were good things to recommend at the Inverell Forum.

Information right up-to-date - on some things.

JEREMY LEE

told us this: USA is massively in debt, for all armies and wars and elections and jails and weapons and extravagance. Pensions for everyone, paying back debts and man-man disasters. Australia is doing its best to outstrip the USA! When Howard and Costello came into government the national debt was \$180 billion. NOW it is \$512 billion. In ten years. Our industries in every way have been ruined.

Households had an annual debt of 60% of their incomes when Howard and Costello came in. In just 5 years it was 100%. In 2007 the household annual debt for each household is 160%.

Toll roads will increase; every road could be a toll road soon. Central Banks can sell our currency to pull us into line. We are fighting our own system, as they are in the USA. It is Globalism

versus Nationalism. We will soon have to pay for water falling as rain. Mr. Lee wants the Christian churches to rise up and take our country back!

He quoted extensively from the brave **JOAN VFEON** who we refer to so

much, she is excellent in her investigative work, but she and Jeremy do not hold **biblical eschatological beliefs.**

DAVE VON KLEIST.

This man was a great entertainer, and worked so

hard to prove that the Sept.11 attack on the Twin Towers, and the Pentagon attack, were both engineered by the US government itself. He has worked a lot on investigating the strange "pod" on the bottom of what was supposed to be a Boeing 767, which was untrue, it was a 737, and the ensuing "flash". Dave gave a lot of good info, with humour and flair. He pointed out that in America people everywhere
