

16 seventies that warrants another viewing, was conditioning us for the future which is now drawing near.

The above represents a very grave problem, far worse than you think!, but what is the answer to it? I have endeavoured to outline the desperate situation the world has been led into, a world where the knowledge of God is systematically being extinguished and being set up for the coming New Age Christ who ultimately will be the bodily manifestation of Lucifer or Satan himself. No previous Ruler, dictator or despot was even a hint of the monster that the Anti Christ will be, so much so that God calls him the beast in the Bible. We are living in a world that is being organized by Luciferians and will produce a global government that is totally satanic. The book of Genesis laid the foundations for a Godly society in which we were to be in communion with and dependant on God for our well being. We will soon be in a world controlled by a system and it's leader and only he who submits will live, albeit shortly as Satan seeks to claim ownership of all human beings.

We all like sheep have gone astray. We are in the snare of he who is constructing a new society. The Bible warns us of this and says that God is willing

to forgive all those who repent, giving them the free gift of eternal life.

MOVEMENT

TO... THE NEW WORLD ORDER

by Laurie Addison -

Independent Australian Researcher

I am sitting here looking at Page 11 of the "*Brisbane Courier Mail*" newspaper, Thursday May 8, at an aerial photo of a town in Burma that was ravaged by the cyclone last weekend, a scene of total devastation. Now most people would naturally think this is just another natural disaster but we at Despatch know differently because of the many subjects the Lord Jesus Christ has made us aware of from our many studies and observations over many years. The evidence suggests this is **NOT** a natural disaster but deliberately done. For those readers who would doubt this I would urge you to continue reading and I will explain the various subjects related to this issue.

1. Mind control.
2. The "Shock Doctrine".
3. CHANGE.
4. Weather Modification.
5. Global Depopulation.

We at Despatch have been following the subject of weather modification for many years and have seen DVDs and books on the above subjects that have enabled us to understand how countries are being manipulated into conforming with the plans for the *New World Order* (NWO). It's one thing to know what's going on but another thing to be able to prove it. This is very difficult as you would understand that those countries and people responsible for the disasters they are deliberately creating don't want anybody to know what they are doing or to be held accountable for the consequences. As far as the NWO is concerned the problem is

to bring **all** nations into the NWO without exception, including those countries which are being stubbornly isolationist. The means to be employed to do this is simply "**whatever it takes**" no matter what! There are two things that go hand in hand with the Global Elitists (GE) (i) money and (ii) power and the GE want **ALL** money and power in the world - they simply want to own and control the whole world and eliminate the masses of human beings that they consider vermin to be eradicated.

We "Despatchites" have recently finished reading a book that has pulled the various strands of subjects together that we are now able to see the method of operation being used in conquering countries much clearer. That book is "**The Shock Doctrine**" by *Naomi Klein* which was reviewed in the latest "Despatch Magazine". The following is a brief summary of the central thrust of the book. Naomi Klein is a journalist, not your average journalist but the genuine investigative type. She looked at the number of countries over the last thirty-five years or so that were revolutionised by the interference of American agencies and the plundering of their assets by American Corporations.

She traced the roots back to an economics Professor named *Milton Friedman* from the Chicago school of Economics. Milton Friedman had a revolutionary theory for economics which was based on the theory which underlies the types of *mind control*

lives to the LORD JESUS CHRIST, the Creator of the whole universe. These Public Servants are being asked to commit their Councils and, more importantly, themselves to AGENDA 21, which is a U.N. Globalist policy, at the expense of our own National interest. This is TREASON for a person is either a NATIONALIST OR A GLOBALIST, you cannot be both! A communist who is an Australian citizen is still capable of being an Australian patriot but an Australian citizen who is a Globalist is automatically a traitor for you cannot be both a Nationalist and a Globalist at the same time.

Father Brian Bainbridge is a Catholic priest from Melbourne and as a "Christian" he should be leading people into a personal commitment to the Lord Jesus Christ but instead he is leading people into a commitment to AGENDA 21, representing the U.N., representing mother earth, representing the god of this world who is Lucifer or Satan. Father Brian Bainbridge is a member of the "Open Space Institute" which is a thoroughly New Age organisation, and again Alice A. Bailey laid the foundations for the NAM in twenty four volumes published by Lucis Press which was originally Lucifer Press. In her writings she identifies Lucifer as the Christ not Jesus Christ.

AGENDA 21 is the U.N.'s programme for sustainable living under the shadow of Global Warming which is the shiny new vehicle replacing the old one traded in called the COLD WAR. The COLD WAR between America and the Soviet Union, the struggle between nations called nationalism, was the previous stepping stone to the NWO. The Cold War achieved it's purposes by the terrorising of the Global population with the concept of NUCLEAR WAR. This however lost it's punch by the creation of "clean" nuclear weapons. It became necessary to find a new CRISIS to terrify the Global popula-

tion. This began with the doomsday concept of NUCLEAR WINTER which was enthusiastically embraced by the very same people who are now advocating GLOBAL WARMING as the APOCALYPTIC disaster threatening the world. It amazes me that these people don't possess the decency to apologise for terrorizing us with a FAIRY TALE which had NO basis of fact whatsoever especially when both the Nuclear Winter and the Global Warming FAIRY TALES were dreamt up by the same RUSSIAN academic, N. N. Moiseyev. All this was pointed out by Australian author, Peter Sawyer in his book, "THE GREEN HOAX EFFECT", published in 1990. Moiseyev's main work was in a facility devoted to the targeting of Russian ballistic missiles!

In reading on these issues over the last twenty years I have seen various different figures for what is a sustainable world population, usually between one hundred and five hundred million people. And it should be borne in mind that the first target for reduction is the western world because we are branded as the world's worst polluters. A few weeks ago while listening to the news on radio national the last item went very close to this " There are now nine million inactive people living in Australia and this is costing the Government one and a half billion dollars per year". (This figure sounds too low to me). This should set the alarm bells ringing. What does inactive mean? Who does it include? I would suggest it includes retirees, particularly pensioners, disabled people, the mentally impaired, essentially what Adolph Hitler called "useless eaters". Does this imply that as inactive people they are non producers? Does this mean that their worth has fallen below their "output", which is nil and rightly so, and are therefore not "sustainable". The "Going Home" scene in the Movie "Soylent Green", another movie from the early

How would you like to spend your life studying to climb the thirty three degrees and then be rewarded with "Lucifer is God"?

The foundations for World Order are laid down in the first book of the Bible. The NWO is a point for point inversion of everything God laid down for the welfare of mankind. God gave man the command to "Go forth and populate the face of the earth", this command has never been revoked for God is well able to supply according to His riches in Glory for ALL that live upon the face of the earth. There is a battle raging all around us but the only people who can see it are Christians and occultists. The prize is the soul of each individual human being who is created in God's image.

WHERE DO YOU STAND?

The environmental movement is now commanding SUSTAINABLE living but what does it really mean? For those of us who are familiar with these issues we are aware that words which have an ordinary meaning in World Order usually have a different meaning in the NWO. This play on words is also known as semantics. For instance the normal meaning of sustainable would be "to do or to use in such a way as not to exhaust resources". In the NWO sustainable means "to compare what it costs in terms of resources to keep you alive compared to your work output". If your output is less than what it costs to keep you alive you will be deemed to be unsustainable. There is nothing new about this, the Jews in the concentration camps knew what it meant to be unsustainable. Before his death Pol pot was adamant that what he did was in the best interests of Cambodia. Introducing sustainable development in Cambodia was easy. Empty the cities, getting the people away from their materialistic free lifestyle, split the men from

the women, choose the best workers and shoot the rest. Not so easy to do in the western world, it takes lots of conditioning, lots of time, and lots and lots of sugar coating but the end result will be the same, under the Antichrist.

This is being achieved in Australia since the Rio earth summit in 1992 by the U.N. programme for sustainable development called AGENDA 21. Check out the extent of the implementation of AGENDA 21 by a search on the internet, noting it's proliferation in Australia, particularly the following site.

www.environment.gov.au

[/esd/la/21/conferencelindex.html](http://esd/la/21/conferencelindex.html)

This is a quote from the above website which is on a Federal Government letterhead.

"Over 370 attended the sustaining our communities conference, including representatives of local government, local government associations, State and Australian government, non governmental organisations (NGOs) and the broader community. A major highlight of the conference, was the closing. This included a symbolic organisational commitment ceremony and a personal commitment ceremony. Adelaide City Council, the Australian Local Government Association, the South Australian Local Government Association, and the international council for Local Environment Initiatives (ICLEI) signed the Sustaining Our Communities Declaration pledging their commitment to progressing local sustainability. Open Space facilitator Father Brian Bainbridge then ran a personal commitment ceremony where all the delegates were asked to declare their personal commitment to leading a more sustainable life and encouraging others to do the same".

Note this is a RELIGIOUS conference devoted to Mother Earth. It is a counterfeit of a Christian Revival meeting where non Christians are invited to COMMIT their

perfected by the CIA in it's various programmes which again were extensions of the experiments carried out by the Nazis. Try as we might we just can't get away from those Nazis! The CIA wanted to carry out experiments in mind control, some of which they could not legally do in the U.S. because of the constitution so they contracted out some of the experiments to Dr. Ewen Cameron in Canada. Many patients with minor psychological problems were used as guinea pigs in his experiments which involved the use of exotic drugs, massive doses of electroshock therapy extended induced comas etc. His theory was to completely erase the memory of a person creating a "clean slate" which theoretically could be reprogrammed. In the process of slate cleaning the victims personality and well being were of course completely destroyed. Many years later the wicked work of Dr. Cameron was exposed, long after he died, and many of the patients sued the Canadian Government and won.

In the mean time Professor Milton Friedman took note of Ewen Cameron's theory on mind control and figured that it could be usefully employed in the economic sphere. Now it must be pointed out that Friedman was a capitalist and some explanation must be made here because our traditional understanding of capitalism would not serve us correctly in dealing with what's coming.

In the western world we generally consider our society to be capitalist as

opposed to the communism of Russia³ and China. Milton Friedman doesn't see it like that. To him our society is socialist because our Governments operate utilities, hospitals, postal services and public schools and also provide social services in the form of pensions etc. He believes they should do none of it and that all these things should be under the control of Private Enterprise. His method of achieving this was by "wiping the slate clean" by implementing THREE MAIN POINTS -

1. Must drop all trade barriers.
2. Must privatise most or all Government and Private assets.
3. Must divest of all social security.

So he had TWO tasks to complete -

- firstly to convert communist countries into corporate controlled countries which he successfully did and then-
- finally to corporatise the western nations which is a much more difficult task because of a little thing called "**CONSTITUTIONS**". And that is exactly where we are now - fighting to uphold the western world which of course is the same territory as that under the influence of Protestant Christianity. In other words the last impediment to be overcome is the constitutions of the western nations. Since the advent of Protestantism, the majority non-Christian people of the western world have enjoyed the blessings of a Christian society but it is rapidly succumbing to the onslaught by a conspiracy of occultic forces. Most notable among the forces are

- Freemasonry,
- the "Skull and Bones Society" in America and
- the Fabian Society in the British Commonwealth.

The western world is being converted "Gradually" as Constitutions are a very difficult impediment to overcome. However the same tool is being used against us by the Neo-Cons who are hard core capitalists and their only interest is **MONEY** and the **POWER** it buys. They have **NO** interest in human beings whatsoever and their manifesto is to eliminate most of the population living on the planet.

Now Friedman had his theory and what he needed was a country to test it on. Being friends with **Richard Nixon**, he thought Nixon would adopt his theory for America, but of course Nixon knew that no President would survive an election with that platform so he declined. But thanks to Nixon Friedman eventually got his chance. Mean while he was looking at South America as there were many countries that were potential possibilities.

The Chicago School of Economics started sponsoring students from South America to study in Chicago and of course were thoroughly brainwashed with Friedman's theories. Thus he had a large pool of economic advisers available to fill positions which would become available in the juntas when his opportunity came. He was well prepared when his first opportunity came in the country of Chile.

FRIEDMAN'S PLAN was based on three main points when selling the idea

to the leadership of a country.

1. Must drop all trade barriers.
2. Must privatise most or all Government assets.
3. Must divest of all Social Security.

Once this is in place the **CORPORATIONS** move in like vultures buying up the countries infrastructure, companies, natural resources, real estate and always at cents in the dollar. The resulting loss of a country to control it's own destiny and the poverty created is of no interest to Friedman and his cohorts. They also found that the best time to hit a country was after a big disaster when there was complete disarray, confusion and people trying to survive the immediate necessities of fresh water, food, medical supplies and shelter.

That's why **NAOMI KLEIN** calls it the **shock doctrine**.

Over the last thirty five years or so many countries have been ransacked including -

- Chile, • Brazil,
- Argentina. • Poland,
- Uruguay, • Russia,
- Bolivia, • China,
- the Asian melt-down
- and of course Iraq.

Additionally after his initial successes in South America, Friedman tried to convince **Margaret Thatcher** to sell Britain's assets but she initially refused because her popularity was very low with an election looming. She was however in favour of the idea and her chance came when Argentina invaded the Falkland Islands. The wave

that. The New World Order is a mixture of the very worst aspects of all the vain philosophies of man, socialism, communism, fascism, naziism, capitalism (not free enterprise) etc. When the Berlin wall came down the people cheered and the East Germans were quick to enjoy their new found freedom. But the wall could come down because now the whole world is becoming the prison. The UN plan for sustainable development is called **AGENDA 21**, being implemented throughout Australia, especially S.E. Old., which will produce a system called "Communitarianism" the principles of which American author Joan Veon calls "a highly refined form of communism" in her book "The United Nation's Global Strait Jacket".

The list below is not exhaustive but should give you the idea that what is represented here is two diametrically opposed religions which is going to have major effects on you and your family whether you like it or not. Environmentalists generally come under the banner of the "New Age Movement"(NAM), which is also working for the establishment of the NWO. The NAM is very active and very influential particularly with the U.N. The NAM is the third attempt by the "Theosophical Society" to enthrone the Antichrist through a man named Benjamin Creme of the Tara Centre. He has been promoting the coming of the Christ

for the last twenty five years. As John the baptist prepared the way for the coming of the Lord Jesus Christ, so is Benjamin Creme counterfeiting what John the baptist did. The first attempt was with a man named Krishnamurti in Sydney Australia in 1922. He backed out at the last minute causing extreme

embarrassment to the society. The second attempt was through Adolph Hitler and the third is coming soon. The guiding principles of the NAM are laid down in twenty four volumes penned by Alice A. Bailey. These are produced by LUCIS trust which was originally called LUCIFER trust, but this was a little too blatant. Alice Bailey identifies Jesus Christ as a usurper and Lucifer as the real Christ.

Similarly in Freemasonry, which is another major vehicle for the NWO. the low and middle degrees spend all their time studying material which the higher degrees know is absolute nonsense. *However the final secret of Freemasonry was revealed by the Sovereign Pontiff, Albert Pike on July 14th 1889 in a letter to the twenty three supreme councils of the world* "That which we must say to the crowd is, we worship a God but it is the God which one adores without superstition. To you Sovereign Grand Inspectors *General*, we say this, and you may repeat it to the bretheren of the 32nd, 31st, and 30th Degrees; the Masonic religion should be by all of us initiates maintained in the purity of the LUCIFERIAN DOCTRINE. If Lucifer were not God, would Adonay, God of the Christians bother to spread false and harmful statements about him.

YES! LUCIFER IS GOD".

BIBLE	WORLD
WORLD ORDER	The NEW World Order
God our Father	The earth our mother
God gave man dominion	Man gave dominion to the earth
Jesus is God	Lucifer is God
Jesus is the Christ	The coming Cosmic Christ or New Age Christ
Sin is the human problem	Bad Karma
Resurrection	Reincarnation
Creation	Evolution
God author of life	Lucifer or Satan, bringer of death
Go forth and populate	Depopulation

The Dangers of the Environmental Movement & Agenda 21

The environmental movement isn't really a movement but a religion and this fact cannot be avoided. The aim is to unite all people on the face of the planet under one Government the "New World Order" (NWO) with one leader. This is the undoing of what God did in Genesis Chapter II. In order to unite ALL people something which is common to all mankind must be utilized. The common element being used is the environment. The environmental movement is a Religious\Spiritual movement which has multiplied enormously since a book, "The Gaia Hypothesis" by James Lovelock, was written in the mid 1980's. The importance of this book is that Lovelock asserts that the earth is a living, breathing organism, not just a thing. The problem was further multiplied when those New Age people who claim to be in tune with "Mother Earth" say that "Mother Earth" is telling them that she is being raped by an overpopulated human race using up all the earth's natural resources. The flames of fear were fanned from 1987 to 1992 when a United Nation's (UN) conference, commonly known as the "Rio Earth Summit", was held. At this meeting a document called "The Earth Charter" was presented and adopted as a guiding principle for a plan of action by the United Nations. The Earth Charter was co-authored by a billionaire New Ager named Maurice Strong and former Soviet Union President Mikhail Gorbachev. Under World Order **God gave man dominion over the world** but with the earth charter **man has given mother earth dominion over man**. This is now enshrined in U.N. laws which means whenever there is a conflict between man and the environment, it must be resolved in favour of the environment.

Since then the earth charter has been

enshrined with voluminous amounts of legislation which is binding upon us. Mikhail Gorbachev is on record as having said "I am in no way giving up my socialist values, but rather the environmental movement promises to bring more people into our orbit than the peace movement ever did." The environmental movement is a Religious\Spiritual movement being manipulated by politicians to empower the United Nations so it can deindustrialize the Western World on behalf of the megabillionaires, the Global Elitists who created the U.N. in the first place. World War I was created to bring the "League of Nations" into existence. As the League of Nations could only make recommendations it didn't fulfill the intended purpose so World War II was fought to create the UN which is now being empowered and is in fact already the defacto Government of the planet. Every Secretary General of the U.N., from not sure about the last two, was a socialist. The U.N. is nothing but a bunch of socialists, communists, New Agers and occultists of every sort. It's simple, create a global body which is socialist to the core then sucker the nations (their like minded stooges in our governments) into signing agreements which on the surface might sound good but in effect mean exactly the opposite. Most Australians wouldn't know that the Federal Govts, both Labour and Conservative have signed many international treaties with the U.N. no doubt covering every aspect of life there is. Can you name any of them? Did the Government ever ask you what your opinion was on any of them?

The Environmental movement is going to do what Soviet Communism could never do deindustrialize the west and destroy our western lifestyle but we are not headed for communism, it's much worse than

of patriotism made her very popular overnight and she then started PRIVATISING Great Britain. The doors were open and now most nations have privatised their national assets. With their money producing assets gone most countries inevitably have to borrow from the World Bank and when they get in too deep **THE INTERNATIONAL MONETARY FUND** intervenes. It's a systematic way to strip countries of their assets and eventually immerse them in debt. Now there are of course some nations that won't play ball so how are they brought to heel?

A Lie Called CHANGE - Using Creative Tension

"In order to bring about **CHANGE** you need a crisis". There is nothing new about this, Government departments, Corporations, NGOs and even the churches, probably the one near you, have trained armies of "Change Agents" to use **CHANGE THEORY** to bring about change which is again based on Hegel's theory of synthesis called Dialectics, in most cases those being involved do not really understand what they are caught up in.

Telstra, the former Australian Government owned TELCO, at one time in the 1990s was training 10,000 employees to be Change Agents. People trained in the theory of change used to be called "**CHANGE AGENTS**" but they are generally known now by the lesser revealing title of "**FACILITATORS**".

The **CHANGE process** operates like a secret weapon in organisations where most members have never heard of it and are unaware the process is being used as a weapon against them. This is the reason why so many organisations have taken a particular course of action in some matter which results in an outcome very different to what most of them would have wanted and then they can't understand why. The **PROCESS** is a means of manipulating people and events to bring about an outcome which the Change Agent wants.

The best way to achieve this is by manipulating crises. Any crisis will do but if there is none a crisis can be deliberately created. In other words if there is no natural crisis to manipulate the people with, you then deliberately create a crisis so you can manipulate them to achieve the goal that you want.

So what do you do with a country that refuses to open it's borders and chooses to remain isolationist? When a reluctant country has no crisis in sight, it is necessary to create a crisis. This is not a problem as the best form of persuasion for stubborn countries is a little **ELECTRONIC WEATHER MODIFICATION**. A simple recipe, a little cyclone followed, perhaps, by a little tsunami while the Americans just happen to be floating around nearby doing a disaster relief exercise with two ships loaded with disaster relief supplies. How convenient considering George Bush and FEMA were totally incapable of dealing with cyclone Katrina in the good ol' US of A. Now I am no lover of mili-

6 tary juntas but those Burma boys aren't as stupid as Bush probably thought. They flatly refused to let the Americans in. I have a sneaking suspicion they might have read Naomi Klein's **"The Shock Doctrine"**. I might also add that as much as I don't like **Robert Mugabe** I have a sneaking suspicion something similar is going on in Zimbabwe. If he gets ousted we will soon find out and possibly Zimbabwe will soon become another Corporation, as Austalia, Qld and NZ have become, and thus not answerable to the people only to big Corporations for profit.

Weather Modification

Now most people know nothing about weather modification and most would doubt it is even possible. We have gathered sufficient material over the years to know it isn't just a reality, but sufficient information to prove it is being used, again, if you live in south-east Queensland, probably in a town near you!

http://english.people.com.cn/200705/21/eng20070521_376400.html

CHINA DAILY: (31st May 2007) GOV'T TO SET UP CENTER FOR WEATHER CONTROL

A national command center for weather modification will be built before 2010 to co-ordinate the practices of rainmaking and hail dispersion around the country.

Thirty of the country's 34 provinces, municipalities, autonomous regions and special administrative regions and 1,952 of about 2,000 counties have

been involved in such operations and they are equipped with 7,113 anti-aircraft guns, 4,991 special rocket launchers and more than 32,300 people, figures from the China Meteorological Administration (CMA) said.

Since 1999, some 250 billion tons of rain have been created and 470,000 sq km of land have been protected from hail. By 2010, the volume of artificial rain is expected to reach 50 billion tons a year, the Xinhua report said.

Weather modification is even being used to help Beijing prevent a down-pour forecast for the opening day of the 2008 Olympics.

The talk of using guns and canons is a red herring, as weather warfare today is carried out by electronic scalar technology and China is probably suitably equipped.

WORLD PEACE HERALD

3rd May 2007

The Chinese government has one of the world's largest weather-modification programs, spending about \$100 million on the projects and training about 1,500 scientists to administer them, he said. Most of the effort involves increasing rainfall for agriculture.

Weather modification in the United States is more sporadic and done mostly by state or local governments. **"We have fallen behind,"** Mr. Golden said. The techniques have been used to increase snowfall in the Sierra Nevada Mountains of California, to clear up icy fog around Salt Lake City International airport, decrease the size of hail in North Dakota and increase rainfall in Texas. (End of Extract)

WHAT HAPPENED ? -

During the early afternoon of Wednesday, 11 December 2003, a strange and unusual cloud formation occurred over the Mobile, Alabama area. The name... **"Hole Punch Clouds"**.

HAS IT HAPPENED BEFORE ?

Yes. A quick internet search quickly reveals a few strikingly similar past photos that were taken in south Florida, the Carolinas and even AUSTRALIA and Canada. Therefore one can conclude that the phenomena has happened before, but on a relatively infrequent basis.

photo courtesy of: Gay Beeler, Warning Coordination Meteorologist, National Weather Service Mobile, Alabama

"Hole Punch Cloud" and Airplane Contrail - A Possible Relationship.,
USA Also possibly being modified AUSTRALIA

by a scalar-wave or other "weather warfare instrument."

-photo courtesy of: Terri and Mike

SCALAR WAVES (scalar electronics) by which an **electronic grid** is created in the sky. He has photos of this. By using two scalar wave beams which, when their antennas are adjusted, can **TARGET** any particular location as desired. When setting the antennas, the two scalar beams grind across each other as they are adjusted creating what Tom Bearden calls **BOOMS, CRACKLES AND POPS**. This is what the "sonic booms" are.

So it appears that Melbourne, Sydney and South-East Queensland around Brisbane have undergone electronic weather warfare.

If so - **WHY?**

Now we are back to the water issue again. The aim of the Global Controllers is to revolutionise society to make it sustainable thus reducing those dreaded Greenhouse gases. This is being foisted on us through the UNITED NATIONS programme called AGENDA 21. We have endured several years of "DROUGHT" supposedly they would have us believe. By creating a huge water shortage which has enabled our Governments to implement draconian legislations, the relevant one in this instance is the confiscation of our water supplies from our City Councils and has put them out to private tenders. We have now been saddled by huge debts for water infrastructure which we never needed. The public will now be paying top dollar to private companies who will be selling us water from infrastructure which the public now has to pay for.

Also the tie up between the three states is that the Murray-Darling river system originates in the north of Queensland, travels down through Qld then through NSW into Victoria and then flows into the Murray river. There is much fuss being made about the failing health of the Murray-Darling system and the Australian federal Government recently took control of it. The danger here is that water from this system supports most of the farming and growers are being denied access to sufficient water. The "drought" of course created a crisis which enabled the federal Government to take control of water, the food supply dependant on it and enables many other programmes to be implemented under AGENDA 21.

AUSTRALIA IS #1 LEADING THE REST OF THE WORLD IN IMPLEMENTATION OF UNITED NATION'S AGENDA 21 VIA THE ENVIRONMENTAL MOVEMENT.

Various pictures of possible weather modification evidence in the clouds follow...

Malaysia to Battle smog With Cyclones

13th Nov. 1997

By CHEN MAY YEE Staff Reporter
of THE WALL STREET JOURNAL
KUALA LUMPUR Malaysia's war on smog is about to get a new twist. The government wants to create manmade cyclones to scrub away the haze that has plagued Malaysia since July. "We will use special Technology to create an artificial cyclone to clean the air," said Datuk Law Hieng Ding, minister for science, technology and the environment.

The plan calls for the use of new Russian technology to create cyclones the giant storms also known as typhoons and hurricanes to cause torrential rains washing the smoke out of the air. The Malaysian cabinet and the finance ministry have approved the plan Datuk Law said. A Malaysian company, BioCure Sdn. Bhd., will sign a memorandum of understanding soon with a government owned Russian party to produce the cyclone. (ELATE)

This latest strategy follows other unsuccessful attempts to banish the haze that has beset Malaysia and its neighbors for months. Those efforts included spraying water from the tops of tall buildings in Kuala Lumpur, and "cloud seeding," in which airplanes sprinkle clouds with a salt solution to induce rain. Malaysia has also sent teams of firemen to Indonesia to help fight the forest fires responsible for the condition. (End of Extract)

On October 13 th 2004 I was working away from Brisbane when a sonic boom and accompanying tremor shook

the area from Noosa in the North to the⁷ Gold Coast in the South of Queensland, a distance of about 150 kilometres. I knew nothing about it until I came home and my wife told me. Initially the first report in the media said that an F111 bomber aircraft broke the sound barrier about twenty miles off the coast but this was eventually retracted. My curiosity was aroused so I went to the internet and typed into Google - "sonic boom + tremor" and to my surprise there were scores of hits all over the world! Very similar stories and usually explained away by a jet fighter breaking the sound barrier. America, England, China, New Zealand, South America and the list went on. I then confined my search to Australia which pulled up four hits -

- BRISBANE Queensland on October 13 2004,
- MELBOURNE Victoria on February 1, 2005,
- MUSWELLBROOK NSW on around March 15 2006, and
- SYDNEY NSW on August 7 2007.

If we leave Muswellbrook aside we have three similar events which just happen to cover the three Capital Cities of the Eastern seaboard of Australia - Brisbane, Sydney and Melbourne.

What a Coincidence!

To read the reports on these events look up the following web addresses - a small summary will be included here for those without internet access

NOTES ON THE ABOVE REPORTS.

A. www.abc.net.au/news/stories/2004/10/13/1218919.htm

My wife told me the incident in **BRISBANE** was not the ground shaking but the buildings! Originally blamed on an F III bomber breaking the sound barrier but later retracted.

F-III BLAMED FOR CAUSING SONIC BOOM

Posted Wed Oct 13, 2004

A sonic boom has shaken coastal areas of south-east Queensland sparking fears of an earthquake.

The ABC switchboard has been flooded with calls from people in the Brisbane area who have felt walls shake and seen windows rattle.

The tremor was felt at Clontarf, on Brisbane's bayside and on Stradbroke and Bribie Islands, and at Deception Bay and Redlands.

Patrick Leahy from north of Brisbane says you could not miss it.

"I felt a very sharp sudden shaking of the house [and] windows and doors rattling quite viciously," he said.

Paul Lineham from Defence Public Affairs says an F-III being tested off-shore created a sonic boom.

"Now normally people on the coast won't hear or feel that but sometimes the sound waves can get trapped in a temperature inversion layer which obviously happened in this situation and it broke closer to shore," he said

MELBOURNE:

The following are some of the comments posted by people about this incident -

1. "Bureau of Meteorology senior forecaster Terry Ryan said there was no record of thunder or lightning in Melbourne last night."

2. "The biggest flash of lightning I have ever seen, followed by the longest and loudest thunder I have ever heard."

3. "The house shaking and windows rattling woke me up, followed by a low rumble."

4. "I live in Melton and woke up to a tremendous boom that shook the house."

5. "She saw a flash of light (her eyes were actually closed) and then heard the boomNone of us believe it was thunder." (Emphasis added)

6. "My dog went totally crazy barking outside."

7. "Both my dogs barking at something they obviously heard but I did not."

8. "Could it really be a sonic boom if it was felt all the way from Reservoir to Ballarat."

9. "but my computers, stereo and central heating spontaneously switched on. I'm going with EMP guess."

10. "electrical - my lamp turns on via static electricity from touch which it did when I awoke just after 3.00 am. Mind you who knows what Johnny and Bush are up to these days eh."

11. Now, here's another spanner into your works, people. Look at the bureau of Meteorology Radar (link below), and observe a hole with ~20 km radius inside the main area (right in the dead centre of the radar image). It seems to be right in the epicentre of the mysterious rumbling you're all describing. We have reported this to the Herald Sun, who said they will send a reporter to investigate. I've been watching this thing since about 9.00 am this morning, and yes, it was there all the time.

MAYOR CALLS FOR SONIC BOOM COMPO

Posted Wed Mar 15, 2006

The Mayor of **MUSWELLBROOK** says residents of Sandy Hollow affected by a sonic boom earlier this week should get compensation from the Air Force.

The sonic boom on Monday afternoon was so intense it dislodged roof tiles and window screens from the Sandy Hollow Public School.

An Education Department spokesman says during the incident young students hid under their desks in fear. A house also suffered extensive cracking.

Some residents thought the bang was caused by an exploding petrol tanker, while others thought it was an earthquake.

Jets from the Williamstown RAAF Base were seen flying in the area at the time and Muswellbrook Mayor John Colvin says the Air Force has acknowledged it was responsible.

"I've been informed by my staff that responsibility has been accepted by the RAAF," he said.

Councillor Colvin says he is confident residents who suffered damage will be compensated.

But the Department of Defence has stopped short of taking responsibility for the incident, saying it had aircraft in the area at the time of the incident, and is now trying to determine exactly where they were.

The Williamstown base commander has been in contact with the affected school to get more information about the incident and determine a course of action.

SYDNEY RESIDENTS FEEL MYSTERY TREMOR

Posted Tue Aug 7, 2007

A mystery earth tremor has been reported by residents in eastern Sydney, but the government agency which monitors earthquakes says the movement was not seismic.

A spokesman from Geoscience Australia says the agency has received calls from Tamarama, Clovelly and Coogee.

A number of ABC radio listeners have also reported feeling a tremor on the north shore and eastern suburbs.

A defence spokeswoman also ruled out a sonic boom from high speed aircraft.

This was as much a mystery to me until I bought a DVD from America which was a lecture given by Thomas Bearden in 1985 called **"Soviet Weather Engineering Over North America"**. I was amazed that not only did this explain what is going on but this information was made known over twenty years ago. WEATHER MODIFICATIONS are carried out using **SCALAR technology**, the theory of which I do not understand nor do I intend to attempt an explanation. Suffice to say that if the things which are said about it are true it makes much of what we see in science fiction seem antiquated!

Thomas Bearden is well known. He was a former Lieutenant-Colonel in the U.S. army, a mathematician, a theoretical Physicist and a "Free Energy" inventor as noted in my previous booklet, **"The Coming Free Energy Revolution"**.

The relevant information we are interested in concerns the use of
